Please Note: There are no lifting facilities at the works and because it is a two storey property with a basement we have appointed a Machinery Removal Company who will undertake the electrical disconnection, drain all coolant (if necessary) and load to your flatbed transport the major items of machinery. These charges are listed online against each applicable lot number.

Smaller items cannot be palletised by machinebidder staff and must be collected by the successful buyer or their elected removal company's transport & labour.

ALL LOTS MUST BE COLLECTED NO LATER THAN MONDAY 15th JULY, 2024
